Pine-Tar Relieves A Cold.

Dr. Bell's Pine Tar-Honey contains all the soothing elements of the pine forest. It heals the irritated membrane, and by its antiseptic properties loosens the phlegm, you breathe easier, and what promised to be a severe cold has been broken up. For that stuffed up feeling, tight chest or sore throat take a dose of Dr. Bell's Pine Tar-Honey and prevent a wearing, hacking cough dragging through the winter. At your Druggist, 25c. - Adv.

To The Music Lovers:

Having completed my first month as head of the Mansfield Band, and knowing as I do that the band is in a large measure one of Mansfield's public institutions, I believe that it would not be amiss to say a few words.

The Mansfield Band, as it is at present constituted, is undoubtedly one of the best organizations in this section of the state. But, like all other walks of life, it from time to time needs the infusion of new blood; or in a more ready vernacular, it needs new members. The members we have are all excellent performers; but not infrequently there is recorded a loss in the present membership, due mostly to members leaving town. So it is obvious that this constant decrease cannot continue indefinitely without the band eventually becoming so small as to be compelled to disband. And if my gauge of public sentiment is right, this is exactly the opposite to that which is desired.

It has been decided to recruit the band up to its maximum possible strength this year, and all men, both the young and the grown ups, are cordially invited to enroll as active members. The men should possess a slight knowledge of music. There are also a few former members of the band living in Mansfield and vicinity who would be welcomed with open arms.

The season of open air concerts is nearing an end, and this winter will be devoted almost wholly to developing the best band in the history of Mansfield. Those enrolling may be assured of my hearty cooperation in fitting them as competent performers. Let us see your interest by enrolling as an active member. Come up to the band hall any Monday or Thursday night.

This is exclusive of the proposed boys' band.

Sincerely,

J. B. Crouch,

Leader of Band.

Riley-Hoover.

A surprise was given everybody Sunday afternoon when Miss Opal Hoover and Raymond Riley were quietly married in the Mansfield M. E. Church by Rev. J. W. Needham, of Seymour. The only parties witnessing the ceremony were: Mrs. J. W. Needham, wife of the pastor officiating, and the Misses Mabel and Jewel Hoover, sister and cousin, respectively, of the bride.

The bride is the daughter of Jake Hoover, proprietor of the Mansfield Garage; and the bridegroom is the son of Mrs. Margaret Riley of this city. Both are well-known young people to all of Mansfield, and are universally liked. Mr. and Mrs. Riley left Sunday evening on the 104 Frisco train for Joplin, where they will make their home. Mr. Riley has a position with the Wilhoit Oil Co. of Joplin.

At the M. E. Church

Rev. J. W. Needham of Seymour accompanied by Mrs. Needham, preached at the Mansfield M. E. church Sunday.

School Notes

By B. E. Coats, Superintendent
Two weeks of school are gone, and everybody is getting down to good, earnest work.

Two new students were added to the enrollment in High School Monday: Jordan Bogart, 11th grade, and Earl Gilley, 9th; several more are expected in the near future.

Sept. 8 the High School organized a literary society. Herve Coday was elected president, and Gracie Craig secretary. The promises of a good literary year are excellent. The first program will be rendered Friday afternoon of this week.

C. A. Stephens and brother, S. A., visited school Wednesday of last week. The former made an excellent talk on school work, and the latter rendered some very charming vocal music.

The Parent-Teacher Association met Friday and laid plans for some very interesting work the coming year. They have arranged for a lyceum course, which will be furnished the people at a minimum cost. School children may purchase season tickets for 75c each; all others will be charged \$1. The association will meet Friday evening of this week at 8 o'clock at the school building. The principal subject for consideration is: "Co-Operation Between School and Home." Come out and help make the meeting a success.

Saturday, at the school building, the Reading Circle work was organized. B. E. Coats was chosen leader, and W. H. Fullington secretary. The work will be held at the school building every three weeks beginning Saturday, Sept. 30. Every teacher in this reading circle district should be interested in the work and be here at each meeting. These meetings can be made a success if we will only do our best.

The boys have put their basketball ground in fairly good shape and are doing some lively practicing. They hope to have some games during the week of the Fair. Anybody want to play?

The girls have organized themselves into a basketball club, and will begin practice as soon as the ball arrives.

The sophomore class has upheld its reputation for progressiveness and has organized, electing Snider Craig president.

The class in agriculture has been doing some work in experimentation. A corn field was visited and examined to find out some of the principles relating to corn-growing. Several experiments with corn, wheat and clover have been made.

The Modern History class has been making a short review of the Greek and Roman civilizations, and of the Teutonic invasions; and are now studying the Frankish kingdom.

The Dates for Mansfield's Fifth Annual Agricultural & Stock Show

Let's go to the 5th annual Agricultural & Stock show this year at Mansfield, Oct. 5, 6, 7; take our stock, chickens and farm and home products and win the premiums. Premium lists at this office.

Joe H. Dennis is another up-to-date farmer who hands in \$1 for the stock show. We need and appreciate the farmer's help. Who will come across with the next \$?

We want you to come and visit the great exposition of local and foreign progress and products. You will learn a lot of "new wrinkles" if you "take a hike" to the Big Fair at Mansfield October 5-6-7, 1916.

has been making a study of the early Anglo Saxon literature.

Owing to the crowded condition of the grammar department several of the eighth grade students have been permitted to sit in the high school study room.

We are pleased to see people visiting our school. This encourages both student and teacher.

Most of the students are doing some home study. We hope that parents will encourage their children to do some studying at home, as it is impossible for the average student to do the required work during school hours.

Some of our boys and girls are in the habit of loitering on the street at night. This is a practice which should be discouraged because it leads to inefficient work at school; besides this, it implants in the minds of the boys and girls an idea of life which is not wholesome. Now is the time when habits are most easily formed. Let us see that the habits formed are good ones.

There are yet a few boys and girls of school age who are not in school. The parents of these children are evading the law by keeping them out of school. The compulsory attendance law ought not to be necessary, but unfortunately it is and it should be rigidly enforced.

Very few tardies and absentees have been reported. Let us make them still fewer.
